TO BE AMBASSADORS.

Some of Our Ministers to Bear That Title.
The statement in Wednesday's Star that Queen Victoria intended to raise the rank of Sir Julian Pauncefote, her representative in Washington, from that of envoy extraordinary and minister plenipotentiary to that of ambassador was confirmed by Secretary of State John Hay yesterday afternoon. He said that Sir Julian's credentials as ambassador are now filed. Under the provisions of the diplomatic and consular appropriation bill of March 1, 1893, President Cleveland is authorized to confer the same rank upon our representative at London. It says that "whenever he shall be advised that any foreign government or person is about to be represented by an ambassador, etc., it shall be in his discretion to direct that representative of the United States to that government shall bear the same title."

The provision was inserted in the bill for the reason that representatives of the United States in many countries have been compelled to yield precedence in official business and otherwise to the representatives of smaller countries holding higher titular rank. Hitherto no ambassador has been accredited to the United States because the United States did not confer that title upon any of its ministers abroad, but it is highly probable that it is about to be conferred. Sir Julian Pauncefote will be the first minister to Washington to hold the title of ambassador, but it is highly probable that it is about to be conferred. THE TENNIS SEASON.
Preparations for Active Work Are Now in Progress—A New Club.
The season of the outdoor tennis tournament which have been published during the week have doubtless awakened the interest of the District players. The warm days have taken the frost out of the courts in the city and before long will also dry them sufficiently to begin play. Those who have courts now are making arrangements for having them put in condition, while those who have not yet procured their own courts may be seen stepping off many a vacant lot. A first-class tennis club is such an expensive luxury that it is only by means of clubs that a large part of those interested in the game can enjoy one. A club has another advantage, too, for it takes at least two to play tennis and in a club an opportunity will be found for the playing of clubs, it will not be out of place to say a few words in relation to a young man's tennis club now being organized. As yet there is no name, but nevertheless the members are extremely active and expect to have a very fine club. The members are to be between the ages of sixteen and twenty. About thirty young men have shown their interest in joining and among them are many of the best of the younger players in the city. The club will be organized in the city. There will be a meeting of the club some time next week, of which every one interested will be invited to attend. C. C. Clark, F. G. A. Stutz and H. F. Boyle are interested in the organization of this club.

THE MONETARY CONFERENCE.
The question of the resumption of the international monetary conference was considered at yesterday's cabinet meeting and it was determined to send instructions to the American ministers abroad to invite the countries to which they are accredited to meet in Washington, D. C., on the 15th of June. It is not thought the conference, if it occurs, can accomplish much, as European nations are generally opposed to the use of silver as a legal tender money metal. The utmost the friends of silver hope from this conference is that it will increase the demand for silver and prepare the way for the ultimate use of silver as a legal tender in at least some of the countries represented.
